- [Mold](#)
- [Pesticides](#)
- [Radon](#)

## EPA Articles and News Releases

Recent EPA *Perspectives* Articles:

[Lead in Private Well Water and its Impacts on Children's Health](#)

There is no safe level of lead. Lead can be present in drinking water without any noticeable changes in color or odor. It is the responsibility of private well owners to test their water for lead and to take appropriate measures to mitigate exposure.

## [From Teacher to Author: How Climate Literacy Guided My Career](#)

Early in my career I realized that shifting the mindset of students in my classroom, especially on a social norm that valued consumerism over environmentalism, was a challenge with context and nuance far beyond my classroom walls.
